Errorreport Enter/Reverse at Markt.

I have installed the same Eas on Different Brokers. Some Eas using the Enter/Revease at Market Feature.

On MT4 The Eas are synchronic. **But On Mt5 I think there is a problem in the Enter/Reverse at Market** Feature.

## Trading Results from 15.1-19.1.24
All Trades are Lot 0.1 normalized.

*Abbildung 6: Left Mt5 demo*   *Right: Mt5 real*

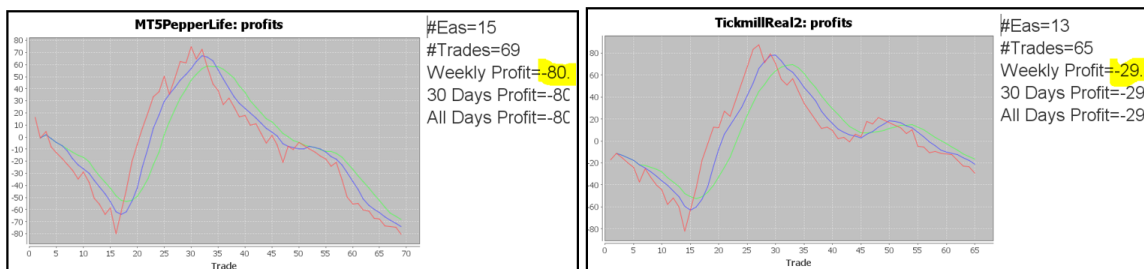

Abbildung 7: Left Mt5 Pepper Life   *Right: VPS Liquibase Tickmill Life*

Remark: On the Liquibase I got Errormessages on two Eas with indicator problems. I deactivated this two Eas. So I have two eas less on the VPS.

I will check in this example the following EA.

For example I will show the trade from 15.1.24 on the different situations

Fast VPS Tickmill-Life	Open 11.00, buy, Close 13.00

MT4-Tickmill-Real-local	Open 11.00, buy, Close 13.00
MT5-Pepperstone-Life-local	Open 11.00, buy, Close 13.00

The Eas a generated with the following feature:

Maximum Trade per Day is only one.

What would happen if I just stopped and restarted Metatrader every now and then? Would he then forget that he already made a trade today? That would explain why he traded twice a day. But the

behavior would still not be the same on all trading robots. Then I always restart all Metatraders at once.

We will compare the trades for the 16.1

Fast VPS Tickmill-Life	Open 11.00, sell, Close 13.00 **Open 13.00, sell, Close 15.00**
MT5-Tickmill-demo-local	Open 11.00, sell, Close 13.00 **Open 13.00, sell, Close 15.00**
